

Chester Race Company statement on Covid-19/Coronavirus

Following the outbreak and ongoing development of Covid-19, we would like to assure members of the public that the safety and wellbeing of patrons visiting our group restaurants is of utmost importance.

We are strictly following guidance issued by the UK Government and NHS to ensure we follow all necessary procedures to protect our employees and visitors.

We all have a duty of care to ensure we collectively prevent the spread of the virus and in addition to closely monitoring the situation, we are adapting our plans, policies and procedures to remain vigilant.

The UK Chief Medical Officers have raised the risk to the public from low to moderate and members of the public are being asked to take simple, common-sense steps to avoid close contact with other people as much as possible, like they would with other flu viruses.

Please pay particular attention to the following guidance:

- Wash your hands and sanitise regularly, Hand sanitiser stations will be available at the entrance to each restaurant.
- Avoid shaking hands
- Avoid touching your eyes, nose and mouth with unwashed hands
- Avoid close contact with people who are unwell
- Avoid sharing food and drink
- Cough or sneeze into a tissue and dispose asap
- Maintain a high level of personal hygiene
- Stay at home if you are feeling unwell

If you are planning to visit one of our restaurants and have travelled to or from any of the countries identified as Category 1 or 2 risk areas, are experiencing cold and flu symptoms; particularly a cough, high temperature or shortness of breath, please carefully consider your plans to visit and the impact your attendance could have on others.

We will continue to take guidance from the UK Government and NHS. Any changes to the current situation will result in an updated statement and guidance being issued.
